PROFESSIONAL SUMMARY

Aspiring Full Stack Developer skilled in Java, SQL, HTML, CSS, JavaScript, and React. Hands-on experience in deep learning projects involving CNN and LSTM. Passionate about building scalable, responsive, and user■friendly applications with clean architecture.

TECHNICAL SKILLS

Frontend: HTML, CSS, JavaScript, React.js
Backend: Java, OOP, Exception Handling
Database: SQL, Joins, Subqueries, DDL, DML
Tools: Git, VS Code, GitHub
Other: Problem Solving, Data Structures

PROJECTS

Image Caption Generator (Deep Learning Project)
Tech: TensorFlow, ResNet50, LSTM, NumPy, Pandas
• Built AI model to generate captions for complex images.
• Used CNN for feature extraction and LSTM for sequence generation.
• Developed a web UI for image upload and caption generation.

EDUCATION

B.Tech – Artificial Intelligence & Machine Learning (2021–2025)
Chalapathi Institute of Engineering & Technology — CGPA: 7.45

Intermediate (2019–2021) — Oxford VIT Academy — 80%
SSC (2018–2019) — Oxford Schools — CGPA: 9.0

CERTIFICATIONS

• Microsoft Azure Administrator Associate
• Cisco Python Essentials Certification

WORKSHOPS

• Game Development Workshop – Buildbox (5 Days)
• Ethical Hacking Workshop (Cyber Crime Intelligence)
• Android Application Development Workshop (5 Days)

SOFT SKILLS

Communication, Leadership, Teamwork, Self■Motivation, Responsibility
